CONTENTS

Design is many things but in my eyes, Design is the way we as architects mold and **evolve** the world with new spaces and experiences. It's like a **layered cake** that consists of breaking boundaries, process, and problem solving. Architecture allows me to improve the flow of people's lives. By **breaking the boundaries** of design, to improve people's lives by manipulating the space to tell a story of complexly and beauty, through articulation in every new project and experience. Design is an on-going messy **process** of trial by errors; which can make you hit the reset button or bless you with a happy mistake, that pushes you to a place you never thought you could go to. Which is why I truly love design and its need for **problem solving**. "A doctor can bury his mistakes, but an architect can only advise his clients to plant vines". Frank Lloyd Wright

CONCEPT NARRATIVE

THE CONCEPT BEHIND THIS PROJECT WAS HIERARCHICAL STRATEGIES. WE WERE GIVEN THE TASK TO MINIMIZE THE PRESENCE OF A TALLER SPACE (THE WORKSHOP AREA) BY MAKING THE SMALLER STRUCTURE (THE MULTI-USE ROOM) LOOK MORE IMPORTANT. WE WERE ALSO TASKED TO MAKE A MEDITATION PATIO THAT WOULD COME FROM RELATIONSHIP OF VOLUMES (THE WORKSHOP AND THE MULTI-USE ROOM).

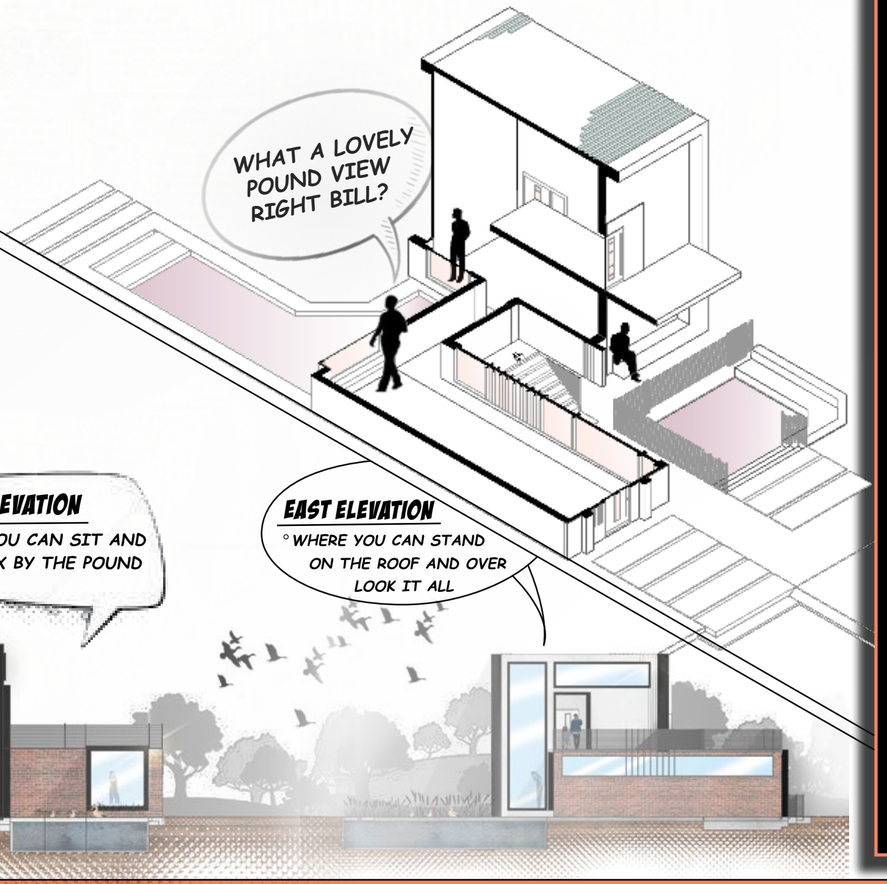

THE APPLICATION OF A BRICK FACADE ON THE MULTI-USE ROOM IS ONE STRATEGY TO MAKE THE SPACE FEEL MORE IMPORTANT THEN THE LARGER SPACE.

CONCEPT NARRATIVE

MY CONCEPT WAS TO MAKE MY VERSION OF A CLASSICAL CHURCH WITH A MODERN VIEW. WE WERE TOLD TO FOCUSES PRIMARILY ON THE EXPERIENCE OF LIGHT AND SHADOW. SO MY PLAN WAS TO A SERIES OF SMALL MOMENTS WHERE YOU EXPERIENCE THE LIGHT. TO LEAD YOU TO MY MAIN EVENT OF A HALF DOMERIGHT BEHIND THE ALTER TO MAKE PEOPLE FEEL AS IF GOD IS TRULY THERE WITH THEM IN THIS HOLY PLACE.

CONCEPT NARRATIVE

THE CONCEPT USED TO CREATE THIS DESIGN UTILIZED THREE OF THE FIVE SENSES AND HOW I PERCEIVED THEM WITHIN THE SITE. THOSE THREE ARE BASIC ORIENTATION, AUDITORIAL, AND VISUAL.

BASIC ORIENTATION

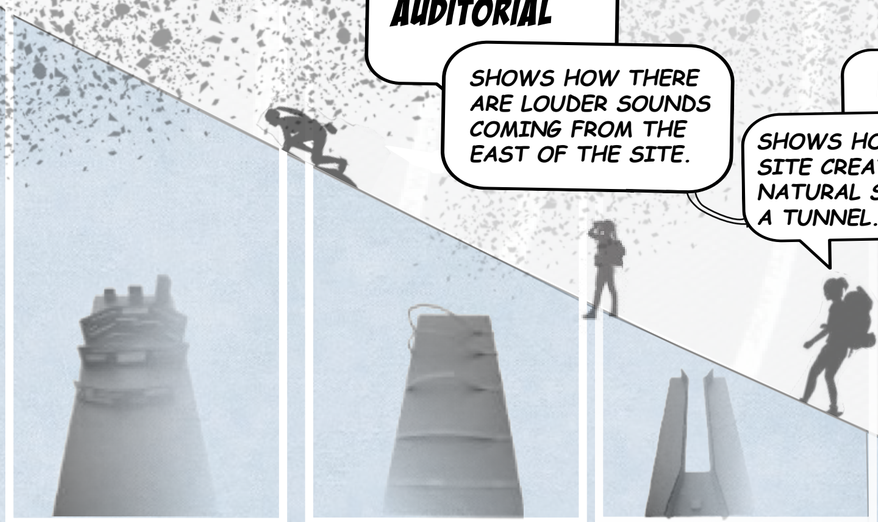

SHOWS HOW THE TREES AND OCEAN ACT AS FILTERS TO THE SITE.

AUDITORIAL

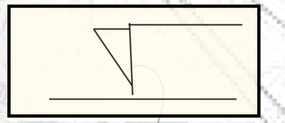

SHOWS HOW THERE ARE LOUDER SOUNDS COMING FROM THE EAST OF THE SITE.

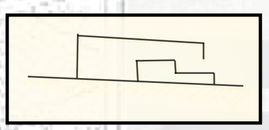

VISUAL

SHOWS HOW THE SITE CREATES THE NATURAL SENSE OF A TUNNEL.
